Re: Proposed County Road Crossing Relocation – Bridwell  
Road Crossing

Dear Judge Liggett:

During construction of this project, we found circumstances that required us to reroute the pipeline across the Bridwell property to the south of Bridwell Road and also on TDS property north of Bridwell Road.

The attached two plan sheets show the approximate location of the new route. Instead of crossing at the previously approved location, we will cross Bridwell Road at a point approximately 930 feet to the West. Also attached is a copy of the original road crossing application sent last year by the City of Wichita Falls

After you have had a chance to review this information, please call me if you have any questions or desire further information. We look forward to your positive response.

Yours truly,
