Keith,

Hope this finds you in good shape after these storms!

Based on our conversation yesterday, when I went back to headquarters with your reply, I found was even better news. You have now have a maximum of \$345,705.93 for your project which at \$6300 per residence gives you the capability of assisting 54 residences NOT the original 37. Hope this helps and we need to include the 54 instead of 37 homes to assist.
