GRANT TERMS AND CONDITIONS

EXHIBIT F

Additional Grant Conditions

1. Additional damage requiring a new Public Assistance project to be written must be reported within 60 days following the Project Scoping meeting with the State- Federal team.
2. All work must be done prior to the approved project completion deadline assigned to each Project (POP). Should additional time be required, a time extension request must be submitted which: a.) Identifies the projects requiring an extension. b.) Explains the reason for an extension. c.) Indicates the percentage of work that has been completed. d.) Provides an anticipated completion date. The reason for an extension must be based on extenuating circumstances or unusual project requirements that are beyond the control of your jurisdiction/organization. **Failure to submit a time extension request 60 days prior to the end of the period of performance may result in reduction or withdrawal of federal funds for approved work.**
3. Any significant change to a project's approved Scope of Work must be reported and approved through TDEM and FEMA before starting the project. Failure to do so will jeopardize grant funding. The Subrecipient shall submit requests for cost overruns requiring additional obligations to TDEM, who will forward to FEMA for review and approval prior to incurring costs.
4. The Project Completion and Certification Report must be submitted to TDEM within 60 days of all approved work being completed for each project. If any project requires the purchase of insurance as a condition of receiving federal funds, a copy of the current policy must be attached to this report, or Duplication of Benefits form certifying other funds were received to complete the project.
5. A cost overrun appeal on small (\$128,900) Public Assistance projects must be reported to the Texas Division of Emergency Management (TDEM) within 60 days of completing the last small project in order to be considered for additional funding.
6. Appeals may be filed on any determination made by FEMA or TDEM. All appeals must be submitted to TDEM within 60 days from receiving written notice of the action you wish to appeal. Should you wish to appeal a determination contained in the project application, the 60 days will start the day the application is signed. Appeals for Alternative Projects will be subject to the terms of the signed agreement for the Alternative Project.
7. Public Assistance program projects will not receive funding until all of the requirements identified in the comments section of the Project Worksheet are met.
8. You may request a payment of funds on projects by initiating a Request for Reimbursement (RFR) in TDEM's Grant Management System (GMS) or an Advance of Funds Request (AFR), and including documentation supporting your request. Small Public Assistance projects are paid upon obligation and will be initiated by TDEM personnel. Payments for open projects must be requested at least quarterly if expenditures have been made in that quarter.
9. Subrecipients will be required to submit quarterly project reports (QPR) for open large projects using TDEM's GMS. Your assigned Grant Coordinator will coordinate the due date for your specific reporting. Public Assistance program small projects are typically exempt from quarterly reporting, however TDEM reserves the right to require QPRs on any smalls requiring a POP extension. The first quarterly report will be due at the end of the first full quarter following the quarter in which the project was obligated. No quarterlies are required for projects that Subrecipient has initiated a closeout request and has provided a certificate of completion. Failure to submit required quarterly reports for two or more quarters can result in withholding or deobligation of funding for Subrecipients until all reports are submitted and up-to-date.

GRANT TERMS AND CONDITIONS

10. Subrecipients expending \$750,000 or more in total Federal financial assistance in a fiscal year will be required to provide an audit made in accordance with OMB Uniform Guidance; Cost Principles, Audit, and Administrative Requirements for Federal Awards, Subpart F. A copy of the Single Audit must be submitted to your cognizant State agency or TDEM within nine months of the end of the subrecipient's fiscal year. Consult with your financial officer regarding this requirement. If not required to submit a single audit, a letter must be sent to TDEM certifying to this.
11. Subrecipients will not make any award to any party which is debarred or suspended, or is otherwise excluded from participation in the Federal assistance programs (EO 12549, Debarment and Suspension). Subrecipient must maintain documentation validating review of debarment list of eligible contractors.
12. Subrecipients must keep record of equipment acquired by federal funds for the life cycle of the equipment. A life cycle for most equipment will be three years, but could be longer. If the fair market value of a piece of equipment is valued over \$5,000, FEMA will have the right to a portion of proceeds if equipment is sold. If the fair market value of a piece of equipment is less than \$5,000, the property can either be retained, sold or designated as surplus with no further obligation to FEMA.
13. TDEM will be using the new FEMA Public Assistance Delivery Model to facilitate the writing of project worksheets (Portal). Subrecipient will be responsible for establishing and maintaining an active account in the Portal and to provide and upload timely, all information requested that is needed to write accurate project worksheets. The Portal will provide the Subrecipient visibility of the entire project writing process.
14. TDEM will be using its new Grant Management System (GMS) for Subrecipient grant management functions. Subrecipient will access GMS to initiate Requests for Reimbursements (RFR), Advance of Funds Requests (AFR), Time Extensions, Scope and Cost changes requests, Quarterly Reports, Project Closeouts, Appeals, and other items deemed necessary by TDEM. Requested forms and processes may be adjusted and changed to accommodate GMS processes and requirements. Subrecipient agrees to monitor GMS as necessary to properly manage and complete awarded projects under this agreement.
- 16.2 CFR 200.210(a)(15), 2 CFR 200.331(a)(1)(xiii) and (a)(4) make reference to indirect cost rates. The Subrecipient may use the negotiated Indirect Cost Rate approved by its cognizant agency, or may use the 10% de minimis rate of modified total direct costs (MTDC) (as per § 200.414) when receiving Management Costs.

Re: 4416-0037-TX
Clay County – Individual Safe Room Rebates
Approval
CFDA 97.039 Hazard Mitigation Grant Program

Dear Chief Kidd:

This letter provides official notification that the Federal Emergency Management Agency (FEMA) approves the application submitted by Clay County for the Clay County Individual Safe Room Rebates project. The Federal share is available through the Hazard Mitigation Grant Program (HMGP) under DR-4416. The non-federal match requirement of \$330,000 will be provided by Clay County.

Pursuant to Section 1215 of the Disaster Recovery Reform Act of 2018, which amended Section 324 of the Robert T. Stafford Disaster Relief and Assistance Act, Subrecipient Management Costs (MC) in the amount of \$33,000 are available to Clay County at a Federal Cost Share of 100%.

Summary of funding for the project is illustrated below:

DR-4416-0037-TX	Federal Share	Non-Federal Share	Total
Project Costs	\$346,700 (51.23392936%)	\$330,000 (48.76607064%)	\$676,700 (100%)
Subrecipient Management Costs	\$33,000 (100%)	\$0.00 (0%)	\$33,000 (100%)
Total Obligation	\$379,700	\$330,000	\$709,700

The following is the approved Scope of Work (SOW) and MC activities for the above-referenced project:

Clay County will fund 110 individual safe room rebates throughout Clay County, Texas for the installation of residential safe rooms for selected and approved Clay county property owners. The property owners will submit application for interior, exterior, or below-ground residential safe rooms. After selection of the properties, Clay County will document each site's compliance with environmental laws in accordance with the Texas Division of Emergency Management's Texas Residential Safe Room Rebate Program Handbook for Local Jurisdictions (dated June 2017). No safe rooms will be allowed in the floodplain. All safe rooms will be built to FEMA 320 and 361 standards.

Approved subrecipient MC activities includes pre-award application development, saferoom registration set up, pre-award Benefit Cost Analysis (BCA), and quarterly reports.

This project has been determined to be Categorically Excluded (CATEX) in accordance with FEMA Instruction 108-1-1 and Department of Homeland Security (DHS) Instruction 023-01-001-01; CATEX E2 from the need to prepare either an Environmental Impact Statement or Environmental Assessment (EA). No extraordinary circumstances in accordance with DHS Instruction 023-01-001-01 have been identified regarding this action. The applicant must comply with all conditions set forth in the attached Record of Environmental Consideration (REC). Failure to comply with these conditions may jeopardize federal assistance including funding.

The milestones included in the application indicate that the time to complete this safe room subaward will be 24-months from the date of this letter. FEMA will not establish activity completion timeframes for individual sub awards. The Period of Performance (POP) for DR-4416 is August 23, 2023, which is 36 months from the close of the application period. It is the responsibility of the recipient and subrecipient to ensure all approved activities associated with this subaward are completed by the end of the POP. Any costs incurred prior to the date of this approval or after the POP will be disallowed.

A change to the approved SOW requires prior approval from FEMA. The National Environmental Policy Act (NEPA) stipulates that additions or amendments to a HMGP SOW shall be reviewed by all state and federal agencies participating in the NEPA process. NEPA sign-off for all SOW additions or amendments is essential before the revised SOW can be approved by FEMA or implemented by the HMGP subrecipient.

In accordance with FEMA Policy #104-11-1 Interim Hazard Mitigation Grant Program Management Costs, any MC provided will be obligated in increments sufficient to cover recipient and subrecipient needs for no more than one year unless contractual agreements require additional funding. Actual subrecipient MC are to be reconciled quarterly during the review of expenditures submitted by the subrecipient through quarterly report process.

Subrecipient MC can be expended for a maximum time of 180 days after work is completed for the subaward or the end of the Period of Performance (POP), whichever is sooner. The initial quarterly progress reports for the HMGP project is due at the end of the approving quarter. Please include this HMGP project in your future quarterly reports. Note that 44 CFR

§ 206.438(c) indicates the State must provide a quarterly progress report to FEMA indicating the status and completion date for each project funded. The report will include any problems or circumstances affecting completion dates, SOW, or project cost that may result in non-compliance with the approved grant conditions.

In accordance with HMGP rules and policy, we require the submittal of all closeout documentation within 90 days of the project completion, not to exceed POP. Section 206.438(d) of 44 CFR requires the Governors Authority Representative (GAR) to “certify that reported costs were incurred in the performance of eligible work, that the approved work was completed, and that the mitigation measure is in compliance with the provisions of the FEMA-State Agreement.”

The Obligation Report, Technical BCA Report and REC are included for your records.

If you have any questions regarding the information, please Florence Aihe, Hazard Mitigation Assistance (HMA) Specialist at (940) 297-0215, Florence.Aihe@fema.dhs.gov.

Sincerely,

Brianne Schmidtke
