			Project
Description	Qty	Cost	Total
<p>Clay County Courthouse Project</p> <p>Painting Tan Trim around top of Court House This bid is only for top outward facing trim at roof line nothing above ground view level.</p> <p>We propose to power wash and scrape all metal trim around roof line spot prime raw metal and apply 2 coats of multi surface acrylic paint. We can not guarantee that the old existing paint may try to pop off later. The only way this can be guarantee is to sand blast all the paint off but I do not recommend this we don't feel there will be a problem just needs to mention it in the bid. Any bad rusted out areas or loose trim will be addressed as a extra if it is to be repaired.</p> <p>This work will be done off heavy boom lifts and will need to be driven around the building. All sprinkler lines and anything else needs to be marked by county people so as its not damaged by lifts, Ruts in the grass will happen with these lifts. If we need to repair them it will be a extra or the county hand do the dirt work.</p> <p>Paint color to be provided by County.</p> <p>Price \$68,500.00</p>			
Total			\$0.00
